3. Risk profile of the investment fund

3.1. Purpose of the investment fund

The aim of the Fund is to share in the performance of companies benefiting from the growth of developing economies, through share price increases or dividend payments of listed companies, either directly (through investments in individual stocks) or indirectly (through ETFs or mutual Funds), while taking environmental, social and governance (ESG) criteria into account. The Fund does not directly invest in shares of Chinese companies within the emerging market universe. The geographical distribution is partly determined by the MSCI Emerging Markets Ex China Index, in which, besides a significant Asian (ex China) focus, European and Latin American companies are also heavily represented, and partly by the MSCI World with Emerging Markets (EM) Exposure Index, in which American and European companies represent the greatest weight. The use of stock and index futures is permitted in order to hedge and effectively build the Fund's portfolio.

3.2. The profile of the typical investor for whom the units of the investment fund are intended

The Fund is primarily intended for Investors who plan to invest for at least the recommended minimum investment period and who consider the indicated value on a scale of 1 to 7 of the risk/reward profile to be acceptable in relation to their risk appetite.

Series	Recommended minimum investment time	Risk classification

3.3. Asset categories, in which the investment fund may invest, with a specific indication as to whether the investment fund is authorized to use derivatives

The primary investment instruments for the Fund are equities, but the Fund may also hold collective investment securities and bond-type investments in its portfolio to provide liquidity, as well as enter into deposit and repo agreements. In order to achieve its investment objectives, the Fund uses derivatives for

hedging purposes and for efficient portfolio management. Exposure of derivatives entered into for the purpose of efficient portfolio management shall not exceed 30% of the fund's net asset value.

3.4. Warning regarding the section of the investment fund rules of procedure that contain the presentation of the investment fund's risk factors

The risk factors of the investment fund are included in Section 26 of the Rules of Procedure

3.5. Purpose of the use of derivatives (realization of hedging or investment objectives), possible impact on the development of risk factors

The Fund Manager is entitled to make deals on behalf of the Fund for investment units only to achieve goals determined in the Management Rules. Derivative deals by nature carry higher risk, which risks can be reduced with the adequate investment techniques, but cannot be fully.

Pursuant to provisions relating to investment unit series of the Collective Investment Act, the Fund Management Company can allocate its assets among the investment unit series in the case of transactions aimed at hedging of foreign currency risks, the purpose of which is to reduce the foreign currency risk of specific series of the Fund against the base currency of the Fund.

3.6. If, in accordance with the investment policy of an investment fund, the aggregate risk exposure of a given institution from investments in transferable securities or money market instruments issued by that institution, deposits with that institution and OTC derivatives with that institution may exceed 20 percent, drawing attention to the special risks arising from this fact

Pursuant to Section 8 (4) of Government Decree 78/2014, the Fund's consolidated risk exposure may not exceed 20% of the fund's assets.

3.7. If the investment fund does not basically invest in asset classes that are not transferable securities or financial assets, or map a specific index, a warning about this element of the investment fund's investment policy

Not applicable.

3.8. If the net asset value of an investment fund may fluctuate significantly due to the possible composition of the portfolio or the management techniques used, the relevant warning shall be issued.

Not applicable.

3.9. If the investment fund - with the permission of the Inspectorate - may invest even 100% of its assets into various transferable securities and money market assets issued by an EEA member state, any of their local governments, third countries, or an international organization one or more member states are members of, Information to call the attention to an event

The Hungarian State, based on a licence issued by the central bank (MNB) pursuant to Section 10(1) of Government Decree 78/2014, subject to the restrictions mentioned in point 14 of the Management Regulations.

3.10. Other information related to the given topic

The benchmark (reference index) used for the Fund shall be produced by a benchmark manager that has been entered in the register referred to in Article 36 of Directive 2009/65/EC (ESMA register).

Results of the assessment of the expected impact of sustainability risk on the return of the financial product offered:

(Substantiation of compliance under Article 6 (1) (b) of the SFDR Regulation)

The returns on the financial products offered by the Fund Manager, including the investment funds, may be affected by the various sustainability risks (e.g. climate risk, transition risk or additional expenses associated with fossil fuels). These impacts typically occur over a longer investment horizon, of 10 years

or longer, while their results can have a significant impact on the performance of a financial product and may possibly impair its performance. (For example, the increasing importance attributed to environmental considerations may result in a market disadvantage to a company operating in a particular sector unless it switches from the ‘traditional’ way of doing things to a more modern and environmentally sustainable method within an appropriate time). Such impacts are typically reflected in the market perception of and thus also in the market value of the company over the longer term, which is something the Fund Manager takes into account in its asset selection decisions. In the case of the VIG Emerging Market ESG Equity Investment Fund, the inclusion of ESG considerations as specified in the investment policy may mitigate the impact of sustainability risks on the sensitivity of returns compared with other funds that target a similar investment universe (emerging markets).

The Fund Manager’s commitment to the importance of sustainability is laid down in the Fund Manager’s Sustainability Policy. Based on its philosophy of responsible investment, the Fund Manager believes that taking these matters into account should make a positive contribution to returns on investment over the long term. In other words, value can be created for investors by giving extra weight to companies that achieve sustainable growth and by lending less weight to investments that have a poor performance in terms of ESG. In the short term, however, the focus on sustainability may impose additional costs on the companies involved, with a potential negative impact on short-term returns. Within an economic cycle, there may be periods when, due to their industry-specific characteristics, investments promoting sustainability features tend to underperform.

The degree of sustainability risk may vary from one financial product to another, or may even change substantially in the case of a specific financial product. These risks are monitored by the Fund Manager on an ongoing basis and investors are informed about them in the manner required by law.

4. Availability of the information provided to the investors

4.1. The name of the place where the investment fund's prospectus, rules of procedure, key investor information, reports for the purpose of regular information and announcements for the purpose of extraordinary information, including information on payments to investors, redemption of units, are available

The Fund Manager shall publish all regular and extraordinary information and announcements related to the Fund at the official Points of Publication of the Fund. Official Points of Publication of the Fund are website <https://kozdetelek.mnb.hu> and website <https://www.vigam.hu>

The Public Prospectus prepared for the public offering of the Fund's investment units, as well as the Key Investor Information can be viewed at the distribution points and at the registered office of the Fund Manager.

4.2. Other information related to the given topic

Not applicable.

5. Tax information

This information has been compiled in accordance with the applicable legislation. The date of the last amendment of the Prospectus is – in accordance with Section 164 (1) bn) of the Kbtv. [the Hungarian act on collective investment forms] – included in the investment fund register maintained by the MNB [National Bank of Hungary], which is available on the MNB’s website at <https://intezmenykereso.mnb.hu>. The current legislation may change after the Prospectus has been written; it is the Investor’s responsibility to read and to be aware of the relevant regulations in force before purchasing the investment units. The Fund Manager shall not be liable for any damage caused to Investors due a lack of knowledge on their part of the applicable tax laws. Should the investors have to pay withholding tax on the returns they earn on the investment units, i.e. on price gains, due to changes in

the tax regulations, the Fund Manager and the Distributor shall not be responsible for deducting such withholding tax.

Pursuant to Govt Decree 205/2023. (V. 31.) on the alternative application during the state of emergency of Act LII of 2018 on the Social Contribution Tax, natural persons are subject to an obligation to pay social contribution tax on the amount of their interest income as per Section 65 of Act CXVII of 1995 on Personal Income Tax taken into account as the base for the personal income tax payable on interest income – this emergency regulation was in force until 31.07.2024.

Act LII of 2018 on social contribution tax was amended as from 01.08.2024. Pursuant the amendment, the previous temporary emergency rule has been upgraded to statutory status, and, accordingly, natural persons are still subject to an obligation to pay social contribution tax on the amount of their interest income as per Section 65 of Act CXVII of 1995 on Personal Income Tax taken into account as the base for the personal income tax payable on interest income – although no longer under Government Decree 205/2023. (V.31.), but as per Section 1(5) of Act LII of 2018 on the Social Contribution Tax.

Distribution abroad: Please note that a detailed review of tax legislation is essential in making your investment decisions and that tax rules may differ from Hungarian rules in the case of foreign sales. In case of foreign distribution of the Fund's series of Investment Units after the Fund has been passported abroad, the tax rules of the country of distribution will apply.

5.1. A brief summary of the elements of the tax system applicable to the investment fund that are relevant to investors

The result of the Fund is not subject to tax in Hungary when preparing the Prospectus. In the case of interest, dividends, exchange gains and any other income on foreign investments, this income may be taxed in the source country (where the income is generated). Taxation of income from foreign investments is determined by the domestic legislation of the given country and, if any, the double taxation agreement between the given country and Hungary.

The Fund's investment units are subject to a special tax when preparing this Prospectus. The tax base is the average asset value of the Fund's unit series on a quarterly basis, with an annual tax rate of 0.05% of the tax base. The tax payable is determined, collected from the Fund, declared and paid by the Fund Manager.

5.2. Information on deductions at source from returns and exchange gains paid to the investors

- a) According to the legislation in force at the time of preparation of the Prospectus, the rate of interest tax payable on the yield of the Units is 15%, which is deducted by the distributor upon sale. Units can be placed in a permanent investment account, after the yield of which the distributor does not deduct tax.
- b) In the case of domestic legal entities and unincorporated companies - according to the legislation in force at the time of preparation of the Prospectus - the return of the Units may increase/decrease their taxable income, after which they must pay tax in accordance with the applicable tax legislation. At the time of preparing the Prospectus, the corporate tax rate is 9%. If, at the request of the Investor, the yield of the Units is broken down, then corporate tax is payable only on the exchange rate gain and interest component of the yield, but not on the dividend portion of the yield.
- c) Taxation of foreign individuals, legal entities and unincorporated companies: If there is an agreement on the avoidance of double taxation between Hungary and the unit-holder's own country of taxation, the taxation of income is subject to the legislation of Hungary and the legislation of his own country according to the provisions of the agreement. In the absence of an agreement, Hungarian tax legislation is applicable to foreigners. The Distributor fulfills the tax deduction obligation in accordance with the relevant tax convention and domestic tax legislation.

7.13. Detailed description of the remuneration policy of the UCITS manager (e.g. method of calculating remuneration and benefits, persons responsible for determining remuneration and benefits, if any, name of the members of the remuneration committee)

At VIG Fund Management, the work of our colleagues creates value for our clients, which is why we have developed working conditions and an incentive system that allows employees who do excellent work to be retained in the long term and also attracts new talent. This requires a competitive remuneration system in addition to work-friendly conditions and ongoing training. Our remuneration philosophy is based on monitoring the labor market and developing appropriate references. Part of our philosophy is to ensure that employees who meet expectations are adequately remunerated. To this end, in addition to a fixed income, we use variable pay in certain jobs, primarily in the area of asset management and sales. At the same time, our remuneration policy only supports healthy risk-taking, thus preventing our colleagues from taking excessive risks that go beyond the mandate. The considered risks also include the sustainability risks, this way supporting the holding's vision that responsible investment practice may create value on the long run. To this end, we make risk indicators part of the interest system, among others, we also use longer-term performance data in the evaluation, and in the case of colleagues with a decisive role in risk-taking (so-called identified), we pay 50% of the variable remuneration, with a three year deferral. Who. This allows the reward to be reduced or withdrawn in the event of excessive risk taking after the end of the assessment period. Over the three years, the accrued portion will be invested in key investment funds managed by VIG Fund Manager, strengthening the interest in the good performance of the funds. A designated group of employees may also receive an annual variable salary (bonus) depending on performance. Employees involved in the bonus: members of the Board of Directors, fund managers and analysts, senior colleagues in the sales area, and the head of the finance 14 and settlement area. The Fund Manager intends to reward excellent performance for the employees involved in this area on personalized terms. Based on the classification of employees working in the above areas, the maximum bonus that can be paid can reach

100 percent of annual income in the case of excellent performance. Maximum performance is achieved when all set goals are exceeded. The setting of personalized goals is the responsibility of the line manager, while its approval is the responsibility of the Chairman and Chief Executive Officer, excluding the job descriptions of the members of the Board of Directors and the identified employees. In their case, the objectives are set under the supervision of Risk Management, while their approval is the responsibility of the Chairman of the Supervisory Board. The fulfillment of the objectives will be assessed, monitored and approved in accordance with the above. In determining the amounts that can be paid out as a bonus, in addition to achieving the individual goals, the size of the bonus frame calculated and approved by the remuneration committee of the VIG Group appears as an additional consideration. VIG Asset Management Co. has developed and continuously maintains its remuneration policy in such a way that it complies with the sectoral legal requirements governing fund managers and other regulatory requirements, in particular the NBH's recommendation on financial institutions' remuneration policy. In addition to the above, the Fund Manager always takes into account the remuneration principles of the Group during the development of its remuneration rules. The remuneration policy is approved by the Supervisory Board and is implemented by the Board of Directors, which is audited annually by internal audit

7.14. Summary of the remuneration policy of the ÁÉKBV fund manager

For our investors the work of employees of the Fund Management Company creates a value, therefore we developed such working conditions and incentive system by which employees performing excellent work can be maintained for the long run. The monitoring of the labour market and the development of adequate references provides the basis for the Remuneration philosophy of the Fund Management Company. It is also part of our philosophy that employees performing above the expectations should get an adequate remuneration; for this purpose, we apply a variable payment in addition to the fixed income, with special regard to the Asset Management and Sales Departments

7.15. A statement by the UCITS management company that the detailed description of the remuneration policy indicated in Section 7.13. is available through a website (including a link to the website) and is also available in hard copy on request.

The detailed extract of the Fund Management's remuneration policy can be accessed on the Fund Management's website (<https://www.vigam.hu>), or a printout is available at the distribution sites.
