

VIG Emerging Europe Bond Investment Fund

B series HUF MONTHLY report - 2024 AUGUST (made on: 08/31/2024)

INVESTMENT POLICY OF THE FUND

The Fund aims to achieve capital growth by investing in bonds of emerging European countries and state-owned companies. The Fund does not apply credit rating restrictions: it may purchase securities of any country or company with any long-term credit rating. The Fund aims for the highest possible capital growth alongside reasonable risk-taking. The Fund primarily purchases foreign currency emerging market bonds, in addition to which it holds Hungarian local currency short-term and long-term bonds for diversification and liquidity management purposes. The bond portfolio may also include short-term, long-term, fixed or floating-rate, structured and convertible bonds issued by mortgage credit institutions, other credit institutions, local governments or other business entities. The core of the Fund's investments is Central Eastern Europe (Hungary, Croatia, Poland, Romania, Slovakia, Ukraine), South East Europe (Serbia, Turkey), the Baltics (Latvia, Lithuania) and the Commonwealth of Independent States (Azerbaijan, Belarus, Kazakhstan, Russia, Georgia, Armenia) and bonds of majority state-owned companies, in addition to which the Fund holds short-term and long-term Hungarian government securities for diversification and liquidity management purposes. The target weight for bond exposures in the Fund in the 16 countries listed (target countries) is 95%. We do not set a limit on debt classification in the Fund. The Fund may only conclude derivative transactions for hedging purposes, or in the interest of establishing an efficient portfolio. The Fund may also hold non-leveraged bond-type collective investment forms. The Fund may also take on significant foreign currency exposure, which is normally covered 100% by the Fund Manager in the target currency (USD), but depending on market conditions, the Fund may also hold open foreign currency positions.

MARKET SUMMARY

The US economy is slowing down, amid manufacturing and services sectors struggling, as indicated by the ISM surveys and reflected in labour market data. Consumers spending is shifting from services to more essentials. In the Eurozone, leading indicators suggest a marginal economic slowdown at the end of the second quarter, despite the positive trend continued. Germany's PMI indicates congestion, while France continues to shrink, although at a slower pace; Italy and Spain still expand, with Spain notably strong. Inflation decreased slightly to 2.5%, with core inflation steady at 2.9%, driven by service prices. Disinflation is expected to continue slowly. GDP growth in China slowed to 4.7% in Q2, below expectations. Retail sales decelerated, though industrial production exceeded expectations, supported by robust foreign demand. The Fed left its monetary policy unchanged but indicated that it might cut rates at its next meeting. The BoE delivered a hawkish 25bp cut, while the BoJ continued to buck the global trend by hiking its policy rate to 0.25%. Demand for govies remained strong, with Bund and UST yields declining further. The BTP-Bund and OAT-Bund spreads widened. Focused on partly disappointing corporate earnings, the European stock market came under pressure, while the US market trod water. Credit spreads increased at the end of the month despite continued strong bank earnings. We closed positions in Croatia and Serbia along with adding to Romania on more attractive valuations, other fund's positions remained unchanged throughout last month.

GENERAL INFORMATION

Fund Manager:	VIG Investment Fund Management Hungary
Custodian:	Unicredit Bank Hungary Zrt.
Main distributor:	VIG Investment Fund Management Hungary
Benchmark composition:	Fund has no benchmark
ISIN code:	HU0000724240
Start:	12/29/2020
Currency:	HUF
