INVESTMENT POLICY OF THE FUND

The AEGON Hungary Fund Management Co. has launched this new derivative investment fund to provide an alternative solution for investors, who are expecting a decline of the share prices on the Polish Stock Market. The Fund offers 90% capital protection by a significant share of Polish Treasury Notes. In case of declining share prices the Fund ensures by its WIG20 put option exposure that the investor will get an extra return on his investment. If the fund manager expects that the stock market will go up then he reduces the options position, but if he sees higher risk in the stock market then he will buy more put options for the WIG20 index. Since the capital protection allows the fund manager to buy only a limited amount of put options, the maximum short exposure of the fund is 50% of the fund's net asset value. Since the fund is a dedicated bearish fund, it intends to keep the WIG20 short exposure above 25% of net asset value.

MARKET SUMMARY

The Fund kept the WIG20 short ratio around 20%, however our sell side exposure has been increased by 15 contracts. The capital protection of the Fund prevents the investors to suffer severe losses even during longer periods of bull markets since the Fund contains shorter term Polish government bonds.
