The price of the WTI oil dropped further, it fell by 6.95 percent. We keep the equity underweight and have not seen any turnaround sign neither in macro nor in the fundamental picture. However one cannot doubt that valuation levels seem to be good. In autumn the volume and market-activity can increase creating opportunity in the near future. While agribusiness companies were flat the wind-industry stocks went up together with material-related shares.

**Investment Policy of the Fund:**

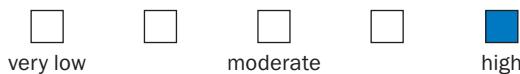

The Fund invests mainly into public companies listed on the main stock markets in the developed world. The primary investment targets are the companies that benefit from the global climate change (Clean Tech, Energy efficiency, Environmental management), utilize alternative energies (renewable energy, water) or involved in the agribusiness (agricultural commodity producer, livestock and aquaculture producer, producer of agrochemicals, bio-fuel industry). To manage risk the Fund Manager invests into listed equities with investment grade and focus on diversification of the portfolio. The Fund is euro denominated. The Fund manager – according to the law – can partly or fully hedge the foreign exchange position.

**Market Summary:**

August was a quiet month, barely happened anything. There was non-directional trading activity in the month, the markets were moving sideways.
