3 months
 1 year
 2 years
 3 years
 5 years

Risc Scale

very low

 moderate

 high

Market Summary:

The bond exposure of the Fund was unchanged during February; we kept a neutral position, and left the Fund's foreign currency investments un-

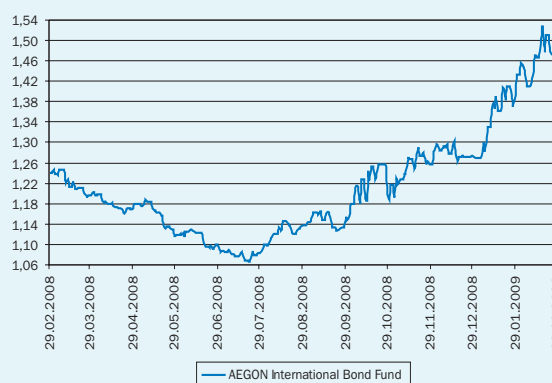

hedged, since we keep the HUF weak on a fundamental basis. The fantastic performance of the Fund could last in the future as well. Because of the recession the company earnings face increasing pressure, which will further support the demand for developed government bonds.

NET Yield Performance of the Fund:
