Start:	2007.09.04
Currency:	PLN
Total Net Asset Value of the Fund:	44,118,342 PLN
Net Asset Value per unit:	0.010326 PLN

INVESTMENT POLICY OF THE FUND:

The AEGON Hungary Fund Management Co. has launched this new derivative investment fund to provide an alternative solution for investors, who are expecting a decline of the share prices on the Polish Stock Market. The Fund offers 90% capital protection by a significant share of Polish Treasury Notes. In case of declining share prices the Fund ensures by its WIG20 put option exposure that the investor will get an extra return on his investment. If the fund manager expects that the stock market will go up then he reduces the options position, but if he sees higher risk in the stock market then he will buy more put options for the WIG20 index. Since the capital protection allows the fund manager to buy only a limited amount of put options, the maximum short exposure of the fund is 50% of the fund's net asset value. Since the fund is a dedicated bearish fund, it intends to keep the WIG20 short exposure above 25% of net asset value.

Suggested minimum investment period:

3 months
 1 year
 2 years
 3 years
 5 years

Risc Scale:

very low
 moderate
 high

MARKET SUMMARY:

The fund gains 1,90% in August on the back of global uncertainty. The European debt crisis, US debt ceiling debate and economic slowdown decrease risk taking in the world and make equity overvalued by decreasing forward corporate earnings. Our WIG20 short position creates profit for investor. We stay with our low risk profile money market portfolio with 0,38 year average maturity, because money market yield curve is flat and market expects no rate hike this year.

ASSET ALLOCATION OF THE FUND ON 08/31/2011
