Currency:	HUF
Total Net Asset Value of the Fund:	3,046,122,204 HUF
Net Asset Value per unit:	1.993714 HUF

INVESTMENT POLICY OF THE FUND:

The AEGON Russia Equity Fund primarily targets the stock exchange-traded shares of companies that maintain an active presence in Russia or the other CIS states, or which generate a substantial proportion of their revenues in these countries. The Fund predominantly invests in equities, but its portfolio also contains bonds and discount treasury bills, currencies and money-market products, to ensure the Fund's liquidity. The equity investments are usually denominated in foreign currency; however the fund may hedge some or all of the currency risk arising from these liabilities by concluding forward or option transactions. Although the Russian and CIS market promises a high potential return, the value of investments may display a marked degree of fluctuation in the short term, and therefore it is advisable to treat the Fund as a long-term investment. The Fund Management primarily bases its investment decisions on its own fundamental analyses, but it also makes use of the information and analyses provided by other investment service providers, banks and independent research companies, in the interests of reducing risks and maximising returns. The Fund's benchmark: 95% RDX Extended Index USD + 5% ZMAX Index.

MARKET SUMMARY:

Stock markets plunged worldwide to 1 year low level in August - following US debt downgrade - on escalating concerns over global growth prospects and European debt crises. The sharp fall generated huge liquidations and redemptions from mutual funds, causing extreme volatility. However global earnings expectations are too high, and it's very likely earnings decline have just started in August, some market reached attractive valuation level. While MSCI Russia outperformed the whole EM YTD till August, fell by 14% last month, underperforming MSCI EM by 4%. Outflows from Russia have been record high, around \$2bn. Brent price managed to be flat on monthly basis, closing the month at 115\$/barrel. As a result, oil sector overperformed the whole market, best performer was Rosneft, which was also supported by favorable company news flow. The largest Russian oil company agreed on a \$3.2bn exploration project with Exxon. Steel sector was the clear laggard last month, as the most vulnerable sector in the current slowing environment.
