Net Asset Value per unit:	1.092022 HUF

INVESTMENT POLICY OF THE FUND:

The Fund's objective is to establish an investment portfolio with a "total return" perspective - to achieve positive return for the investor under any circumstances. The Fund attempts to reach this goal by selecting - subsequent to the application of different ways of analysis - those asset classes that bear the highest potential for appreciation. Investments are performed through the purchase of investment Fund's shares and collective investment securities. According to the professional consensus 40 percent of the return of a given portfolio is determined by the selection of the asset classes. With regard to this, one of the most important steps in carrying out investment activity is the selection of the appropriate asset class, which requires increased awareness, market experience and deeper analysis, forecasting capability, and last but not least an immense amount of time. These capabilities and resources can be found typically among professional investors, and consequently it is them who make and carry out those decisions that result the highest profit with the most advantageous risk/reward ratio. To achieve a continuously positive return the Fund actively uses risk management procedures, primarily so-called "stop-loss" procedures. Further, the sizes of positions that bear higher risk are selected with the utmost care. With the help of AEGON derivative Funds the AEGON Smart Money Investment Fund of Funds will have the opportunity of "short-selling" and thereby the ability to realize positive returns not only in rising markets, but in falling ones as well.

DISTRIBUTORS

AEGON Magyarország Befektetési Jegy Forgalmazó Zrt., BNP-Paribas Magyarországi Fióktelepe, Erste Befektetési Zrt., Raiffeisen Bank Zrt.

MARKET SUMMARY:

Equity market meltdown continued in September, triggered by European debt crises and global recession concerns. European debt crises sparked by Greece and indebted periphery counties have spilled over into the European financial, causing further outflows from risky assets. While valuation of global equity markets have become compelling, probably the response of fiscal and monetary authorities to European sovereign's debt problems will determine the future of how markets move henceforth. We maintained our above average equity weight in September, while we significantly changed their regional structure. We switch our Russian exposure and to Turkey as we expect commodity related countries will underperform. Our total return exposure was mainly unchanged, while we came back to the Hungarian back market via Aegon Domestic Bond Fund.

NET YIELD PERFORMANCE OF THE FUND:

Time horizon	12 months	2010 year
