INVESTMENT POLICY OF THE FUND:

The Fund's objective is to establish an investment portfolio with a "total return" perspective - to achieve positive return for the investor under any circumstances. The Fund attempts to reach this goal by selecting - subsequent to the application of different ways of analysis - those asset classes that bear the highest potential for appreciation. Investments are performed through the purchase of investment Fund's shares and collective investment securities. According to the professional consensus 40 percent of the return of a given portfolio is determined by the selection of the asset classes. With regard to this, one of the most important steps in carrying out investment activity is the selection of the appropriate asset class, which requires increased awareness, market experience and deeper analysis, forecasting capability, and last but not least an immense amount of time. These capabilities and resources can be found typically among professional investors, and consequently it is them who make and carry out those decisions that result the highest profit with the most advantageous risk/reward ratio. To achieve a continuously positive return the Fund actively uses risk management procedures, primarily so-called "stop-loss" procedures. Further, the sizes of positions that bear higher risk are selected with the utmost care. With the help of AEGON derivative Funds the AEGON Smart Money Investment Fund of Funds will have the opportunity of "short-selling" and thereby the ability to realize positive returns not only in rising markets, but in falling ones as well.

MARKET SUMMARY:

Smart Money Fund closed the month with excellent performance, gained more than 2% in one month. The fund could benefit from the revaluation of the Hungarian assets. We raised the weight of the Hungarian Bond Fund in the middle of the month, which rallied more than 4%. The heavy weighted total return funds also contributed to the overall performance as these funds shows an outstanding performance in the current fluctuate market. We are waiting to step back into the equity market as long as the market direction become more evident.
