Net Asset Value of institutional series:	2,620,489,834 HUF
Net Asset Value per unit:	2.242670 HUF

INVESTMENT POLICY OF THE FUND:

The AEGON Russia Equity Fund primarily targets the stock exchange-traded shares of companies that maintain an active presence in Russia or the other CIS states, or which generate a substantial proportion of their revenues in these countries. The Fund predominantly invests in equities, but its portfolio also contains bonds and discount treasury bills, currencies and money-market products, to ensure the Fund's liquidity. The equity investments are usually denominated in foreign currency; however the fund may hedge some or all of the currency risk arising from these liabilities by concluding forward or option transactions. Although the Russian and CIS market promises a high potential return, the value of investments may display a marked degree of fluctuation in the short term, and therefore it is advisable to treat the Fund as a long-term investment. The Fund Management primarily bases its investment decisions on its own fundamental analyses, but it also makes use of the information and analyses provided by other investment service providers, banks and independent research companies, in the interests of reducing risks and maximising returns. The Fund's benchmark: 95% RDX Extended Index USD + 5% ZMAX Index.

MARKET SUMMARY:

In March attention was focused on the Cyprian crisis. According to the expectations part of the holdings above 100 000 euro owned by depositors will be frozen, the other part will be converted automatically into bank stocks. The fact that in such a case the depositors might be involved in the share of losses caused uncertainties in the European equity market. During the month the Italian no-win situation was not solved, the attempt to form of the cabinet proved pointless. S&P 500 reached all time high and the DAX index didn't lag much behind its previous peaks either.

The Russian equity market fell 3,36% in HUF terms due to the Cyprian events. In contrast with the expectations not only the VTB Bank which has Cyprian operation suffered but the steel-(Novolipetsk Steel, Evraz) and mining companies as well, although they have only connections with Cyprus.

ASSET ALLOCATION OF THE FUND ON 03/31/2013
