Net Asset Value of HUF series:	6,852,720,825 HUF
Net Asset Value per unit:	2.274228 HUF

### INVESTMENT POLICY OF THE FUND:

The aim of the fund is to function as a stable, low-risk investment vehicle, but to offer investors better returns than the performance of the current benchmark index, which may differ from interest rates depending on market conditions. The fund is a standard variable net asset value money market fund. The portfolio elements are selected in accordance with the above mentioned principles and based on the EU wide regulation on money market funds. To ensure liquidity the fund manager primarily aims to hold government bonds and discount treasury bills issued by the Government Debt Management Agency (ÁKK), and short-term instruments (e.g. deposits, repos) available on the interbank market. The fund is low-risk, but its portfolio may also contain mainly forint-, but also other foreign currency denominated debt securities issued by banks and corporations, which are expected to ensure a higher return than government securities. To a limited extent, the fund may also invest in bonds issued or guaranteed by the OECD or G20 countries, any central-, regional- or local governments and national banks of the EU and also by the European Union, the European Central Bank or the European Investment Bank. The fund may hold securitisations, asset-backed commercial papers and also investment units and shares within the framework of the Money Market Funds Regulation. The Fund shall have a weighted average maturity no more than 6 months, and a weighted average life no more than 12 months. Moreover, the Fund shall also be allowed to invest in money market instruments with a residual maturity until the legal redemption date of less than or equal to 2 years, provided that the time remaining until the next interest rate reset date is less than or equal to 397 days. The fund may hold a limited proportion of foreign-currency instruments in its portfolio, but only subject to the full hedging of currency risk (the difference between the currency risk exposure of the derivative instrument and the hedged instrument can be maximum 5%). Aegon Moneymarket Fund is not a guaranteed investment. The risk of loss of the principal is to be borne by the investor. An investment in Aegon Moneymarket Fund is different from an investment in deposits, with particular reference to the risk that the principal invested in Aegon Moneymarket Fund is capable of fluctuation. Aegon Moneymarket Fund does not rely on external support for guaranteeing the liquidity of the fund or stabilising the NAV per unit or share.

### MARKET SUMMARY:

In April, year-on-year inflation may have risen to close to 5% from 3.7% in March, mainly due to the low base from last year. The economy has begun a gradual opening, thanks to the acceleration of the vaccination process, which could boost price increases over the next 1-2 months. On the news of the reopening of the economy, the forint exchange rate has also started to stabilize. As a result, the central bank left the policy rate unchanged at its April rate decision meeting and the one-week deposit rate was unchanged during Thursdays' tender. The central bank reiterated that their aim is to avoid a sustained rise in inflation, so if they see upside risks they are ready to use the appropriate tools. In April, 3-month FX implied yields remained around 75 basis points and 12-month FX implied yields fell from 95 basis points to 86 basis points. Average yields in the 3-month DKJ auctions were initially still around the base rate and then started to decline due to the large maturity in mid-April. Average yields on 12-month DKJ auctions also declined, falling from 72 basis points to 65 basis points. In the second half of the month the oversubscription rate for the 3-month paper thus hovered in the range of 4 to 5. In April, the central bank accepted all bids submitted in the one-week deposit tenders held on Thursdays, and interbank liquidity remained ample.

### ASSET ALLOCATION OF THE FUND ON 04/30/2021

Asset type	Weight
T-bills	66.17 %
Deposit	23.70 %
